

HOTEL

Le Sainte Florence

Customer information on low ecological impact transport in the city of Sainte Florence

The community of communes of the Pays de Saint Fulgent-Les Essarts, which includes the town of Sainte Florence, is aware of the environmental impact on its commune. We suggest you remember good practices and ways to move more sustainably! Here are the solutions we have available in the region.

DESTINEO: this website allows you to travel from one point to another using only public transport in Pays de la Loire. It calculates the time of your route by combining all modes of transport at your service on this journey, from door to door (bus, car or train) <https://www.destineo.fr/fr/>

Public transport - impact reduced by the collective effect

ALEOP BUS: <https://aleop.paysdelaloire.fr/mes-deplacements/mon-reseau-aleop>

- o Line 370 - Bazoges-en-Paillers
- o Line 510 - Essarts-en-Bocage
- o Line 590 - Chavagnes-en-Paillers and Saint-Fulgent

A bus stop is located 100m from the hotel and has an electric charging station

TRAIN: Possible connections with the SNCF station <https://www.sncf-connect.com>

Carpooling - optimize car use

KAROS: the carpooling platform partner of the Communities of Municipalities of Bocage Vendéen via KAROS Application

Other carpooling platforms for longer journeys: Blablacar, OuestGo, Mobicoop...

Find a carpooling area: Map of Carpooling Areas in France

Calculate your emissions on a journey: CO2 impact from ADEME and <https://impactco2.fr/>

Cycling and walking - zero impact for healthy lungs

GÉOVÉLO: this application allows you to choose your most suitable and secure cycling route <https://geovelo.app/fr/>

Discover the region's hiking trails: <https://www.ccfulent-essarts.fr/Tourisme-Culture-Loisirs-Sport/Les-sentiers-de-randonnees>

OUR ECO RESPONSIBLE APPROACH

The Hotel Le Sainte Florence and its commitment to an environmental approach.

Aware of the fragile balance of our planet and our responsibilities, Sainte Florence is committed to carrying out a certain number of eco-responsible actions.

We try to be as active and preventive as possible through common sense actions and eco-citizen gestures.

Water Management

Showers equipped with water flow limiter joints and WC equipped with water-saving system / limitation of the number of washing machines

Energy management

Used bulbs replaced with low-consumption bulbs / radiators equipped with thermostats and temperature restriction programming / regular maintenance of our electrical, gas and boiler installations / lights turned off after each passage / reduction of standby periods for electrical appliances

Management of sorting packaging and waste

Selective sorting of bulbs, ink cartridges, batteries, cardboard, glass / limitation of individual packaging by eliminating individual portions at breakfast (Jams)

Paper management

Using thin weight paper / printing double-sided paper / reducing printouts to maximum

Hospitality product management

2 ecological welcome products in our bathrooms: green tea soap and solid shampoo shower gel 100% essential oil packaged in a certified ecological paper bag, made with renewable and non-toxic raw materials.

On request ecological dental kits. Each mouth set is wrapped in recycled, environmentally friendly paper.

Management of cleaning products and room maintenance

Reduction in the number of cleaning products (multi-purpose cleaner and organic disinfectant)

Management and choice of food products

Short circuits and local suppliers are favored / our products are seasonal, regional, and come from fair trade

We want to be part of this eco-responsible approach in the long term. We therefore make all of our staff aware of these actions and we regularly evaluate the means implemented.

During your stay at Sainte Florence, you too can support our action through simple gestures.

We remain attentive to your comments and ideas in order to grow in this crucial area.
